

Sturgis District Library

NetLibrary eAudiobooks

at

WWW.NETLIBRARY.ORG

You may sign up for an account at the library's reference desk

Do not change your username. It needs to be your barcode number or it will be deleted during regular database cleanup.

You may download the Net Library software. We recommend, however, that you simply save/download the desired audiobook to your "My Music" folder and then open Windows Media Player to access the file. You may listen to the file on your computer or transfer it to your MP3 player. You may need to update Windows Media Player.

To check for compatible players go to:

www.netlibrary.com/players
